Change the existing priority Let Texas Run Texas to the following:

Let Texas Run Texas

END FEDERAL OVERREACH

Resist all unconstitutional federal acts and mandates including those that restrict transportation, mandatory kill switches in vehicles, road diets, and restrictions on the owner's right to repair vehicles and equipment. Ensure that Texans have medical freedom and are able to give or withhold consent for any vaccine or medical treatment without coercion. Give Texans a choice to end all federal overreach by holding a non-binding referendum on Texas Independence that results in a joint committee to study and make recommendations regarding Texas returning to its status as an independent nation.
